as Tanaors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils. Blains, and all Skin Diseases. OAKLAND, Ind., 6th June, 1859. J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in thers on my hands and arms; sometimes it turned inward and distressed me at the stomack. Two years ago it broke out on my head and covered my scalp and ears with one sere, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my

One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the ulcers healed, and he is well again, not of course without some distiguration to his face. They had become so sensitive to the weather that on a damp day she suffered ex-cruciating pain in her joints and bones. She, too, was cured entirely by your sarsaparilla in a few weeks.
